India and Pakistan Sanctions and Other Measures**AGENCY:** Bureau of Export Administration, Commerce.**ACTION:** Interim rule.

SUMMARY: In accordance with section 102(b) of the Arms Export Control Act, President Clinton reported to the Congress on May 13th with regard to India and May 30th with regard to Pakistan his determinations that those non-nuclear weapon states had each detonated a nuclear explosive device. The President directed that the relevant agencies and instrumentalities of the United States take the necessary actions to impose the sanctions described in section 102(b)(2) of that Act.

The Bureau of Export Administration (BXA) is taking a number of sanctions measures consistent with the President's directive. Consistent with the provisions of section 102(b)(2)(G) of the Arms Export Control Act, BXA is revising the Export Administration Regulations (EAR) to codify sanctions against India and Pakistan by setting forth a licensing policy of denial for exports and reexports of items controlled for nuclear nonproliferation and missile technology reasons to India and Pakistan, with limited exceptions. This licensing policy was adopted in practice in existing regulations in June 1998. This rule also contains certain discretionary measures that are being taken. BXA is adding to the Entity List set forth in the EAR certain Indian and Pakistani government, parastatal, and private entities determined to be involved in nuclear or missile activities. In addition, Indian and Pakistani military entities are added to the Entity List in order to supplement the sanctions. BXA is adopting a licensing policy of a presumption of denial with respect to items specifically listed on the Commerce Control List to listed Indian and Pakistani military entities, with limited exceptions.

This rule will increase the number of license applications submitted for India and Pakistan.

DATES: This rule is effective November 19, 1998. Comments on this rule must be received on or before January 19, 1999.

ADDRESSES: Written comments on this rule should be sent to Sharron Cook,

SUPPLEMENTARY INFORMATION:**Background**

In accordance with section 102(b) of the Arms Export Control Act, President Clinton reported to the Congress on May 13th with regard to India and May 30th with regard to Pakistan his determinations that those non-nuclear weapon states had each detonated a nuclear explosive device. The President directed in the determination reported to the Congress that the relevant agencies and instrumentalities of the United States take the necessary actions to impose the sanctions described in section 102(b)(2) of that Act.

Consistent with the President's directive, the Bureau of Export Administration (BXA) is imposing certain sanctions, as well as certain supplementary measures to enhance the sanctions. Consistent with the provisions of section 102(b)(2)(G) of the Arms Export Control Act, BXA is amending the Export Administration Regulations (EAR) by adding new § 742.16, India and Pakistan sanctions. This section codifies a license review policy of denial for the export and reexport of items controlled for nuclear proliferation (NP) reasons to all end-users in India and Pakistan, except for computers (see § 742.12(b)(3)(iii), High Performance Computers, for license review policy for computers). This licensing policy was adopted in practice in existing regulations in June 1998. This section also includes a new license policy of denial for the export and reexport of items controlled for missile technology (MT) reasons to all end-users in India and Pakistan, except that items listed in § 740.2(a)(5) of the EAR remain eligible for applicable License Exceptions when intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft and licenses for items intended for the preservation of safety of civil aircraft will be reviewed on a case-by-case basis. Items controlled on the Commerce Control List for nuclear and

missile technology reasons have been made subject to this sanction policy because of their significance for nuclear explosive purposes and for delivery of nuclear devices.

To supplement the sanctions of § 742.16, this rule adds certain Indian and Pakistani government, parastatal, and private entities determined to be involved in nuclear or missile activities to the Entity List in Supplement No. 4 to part 744. License requirements for these entities are set forth in the newly added § 744.11. Exports and reexports of all items subject to the EAR to listed government, parastatal, and private entities require a license. A license is also required if you know that the ultimate consignee or end-user is a listed government, parastatal, or private Indian or Pakistani entity, and the item is subject to the EAR. The only exception to this license requirement is for items listed in § 740.2(a)(5) of the EAR, which remain eligible for applicable License Exceptions when intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft. With respect to subordinates of listed entities in India and Pakistan, only those specifically listed in Supplement No. 4 to part 744, Entity List, are subject to the restrictions and policies set forth in § 742.16, except that General Prohibition 5 (see 736.2(b)(5)) continues to apply to all exports and reexports to Indian and Pakistani entities, including unlisted subordinates of listed entities. All applications to export or reexport items subject to the EAR will be reviewed with a presumption of denial to these entities, except items for the preservation of safety of civil aircraft will be reviewed on a case-by-case basis. Except for items controlled for NP or MT reasons, exports or reexports to listed parastatals and private entities with whom you have a preexisting business arrangement will be considered on a case-by-case basis, with a presumption of approval in cases where neither the arrangement nor the specific transaction involves nuclear or missile activities and the exports or reexports are pursuant to that arrangement. The term "business arrangement" covers the full range of business agreements, including general contracts, general terms agreements (e.g., agreements whereby the seller delivers products under purchase orders to be issued by the buyer), general business agreements, offset agreements, letter agreements that are stand-alone contracts, and letter agreements that are amendments to existing contracts or other agreements. The terms of the

preexisting business arrangement policy may also apply to the longstanding continued supply of a particular item or items from the exporter to the entity even when there is no current agreement between the firms. BXA, in conjunction with other agencies, will determine eligibility under the preexisting business arrangement policy. In order to be eligible under the policy, you must provide documentation to establish such an arrangement. The documentation should be provided at the time you submit a license application to export or reexport items to any listed parastatal or private entity.

To further supplement the sanctions of § 742.16, this rule adds certain Indian and Pakistani military entities to the Entity List in Supplement No. 4 to part 744. License requirements for these entities are set forth in the newly added § 744.12. Exports and reexports of all items subject to the EAR having a classification other than EAR99 to listed military entities require a license. A license is also required if you know that the ultimate consignee or end-user is a listed military Indian or Pakistani entity, and the item is subject to the EAR having a classification other than EAR99. No License Exception overcomes this license requirement, except a License Exception for items listed in § 740.2(a)(5) of the EAR when intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft. Applications to export or reexport items controlled for NP or MT reasons to listed military entities will be denied, except items intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft, which will be reviewed on a case-by-case basis; and computers, which will be reviewed with a presumption of denial.

The addition of entities to the Entity List does not relieve exporters or reexporters of their obligations under General Prohibition 5 in § 736.2(b)(5) of the EAR, "You may not, without a license, knowingly export or reexport any item subject to the EAR to an end-user or end-use that is prohibited by part 744 of the EAR." BXA strongly urges the use of Supplement No. 3 to part 732 of the EAR, "BXA's 'Know Your Customer' Guidance and Red Flags" when exporting or reexporting to India and Pakistan.

Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect, to the extent permitted by law, the provisions of the

EAA and the EAR in Executive Order 12924 of August 19, 1994, continued by Presidential notices of August 15, 1995, August 14, 1996, August 15, 1997, and August 13, 1998.

Saving Clause

Shipments of items removed from License Exception or NLR authorizations as a result of this regulatory action that were on dock for loading, on lighter, laden aboard an exporting carrier, or en route aboard a carrier to a port of export, on November 19, 1998, pursuant to actual orders for export to that destination in India or Pakistan, may proceed to that destination under the previous License Exception or NLR authorization provisions so long as they have been exported from the United States before December 17, 1998. Any such items not actually exported before midnight December 17, 1998, require a license in accordance with this regulation.

Rulemaking Requirements

1. This final rule has been determined to be significant for the purposes of Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the Paperwork Reduction Act (PRA), unless that collection of information displays a currently valid OMB Control Number. This rule involves collections of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). These collections have been approved by the Office of Management and Budget under control number 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 40 minutes to prepare and submit electronically and 45 minutes to submit manually on form BXA-748P. This rule contains one new information collection requirement approved under control number 0694-0111, "India and Pakistan Sanctions," which carries a burden hour estimate of 10 minutes per submission for miscellaneous activities, such as attaching supporting documentation that substantiates a preexisting business relationship. An additional 2 minutes per submission is needed for recordkeeping.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public

participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (Sec. 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this interim rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. 553 or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

However, because of the importance of the issues raised by these regulations, this rule is being issued in interim form and comments will be considered in the development of final regulations.

Accordingly, the Department encourages interested persons who wish to comment to do at the earliest possible time to permit the fullest consideration of views.

The period for submission of comments will close January 19, 1999. The Department will consider all comments received before the close of the comment period in developing final regulations. Comments received after the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept public comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the persons submitting the comments and will not consider them in the development of final regulations. All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, the Department requires comments in written form. Comments should be provided with 5 copies.

Oral comments must be followed by written memoranda, which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the United States Government or foreign governments will not be available for public inspection.

The public record concerning these regulations will be maintained in the Bureau of Export Administration Freedom of Information Records Inspection Facility, Room 4525, Department of Commerce, 14th Street and Pennsylvania Avenue, NW, Washington, DC 20230. Records in this

facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facility may be obtained from Margaret Cornejo, Bureau of Export Administration Freedom of Information Officer, at the above address or by calling (202) 482-5653.

The reporting burden for this collection is estimated to be approximately 57 minutes, including the time for gathering and maintaining the data needed for completing and reviewing the collection of information. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments regarding these burden estimates or any other aspect of the collection of information, including suggestions for reducing the burdens, should be forwarded to Sharron Cook, Regulatory Policy Division, Office of Exporter Services, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044, and David Rostker, Office of Management and Budget/OIRA, 725 17th Street, NW, NEOB Rm. 10202, Washington, DC 20503.

PART 742—[AMENDED]

3. Part 742 is amended by:

- a. Revising § 742.12, paragraph (b)(3)(iii); and
- b. Adding a new section 742.16, to read as follows:

§ 742.12 High Performance Computers.

- * * * * *
- (b) *Licensing policy.* * * * *
- (3) *Computer Tier 3.* * * * *

(iii) *Licensing policy for other end-users and end-uses.* License applications for exports and reexports to other end-uses and end-users located in Computer Tier 3 countries will generally be approved, except there is a presumption of denial for all applications for exports and reexports of computers having a CTP greater than 2,000 MTOPS destined to Indian and Pakistani entities determined to be involved in nuclear, missile, or military activities included in Supplement No. 4 to part 744 (Entity List). All license applications for exports and reexports to India and Pakistan not meeting these criteria for presumption of denial will be considered on a case-by-case basis under other licensing policies set forth in the EAR applicable to such computers.

§ 742.16 India and Pakistan Sanctions.

In accordance with section 102(b) of the Arms Export Control Act, President Clinton reported to the Congress on May 13th with regard to India and May 30th with regard to Pakistan his determinations that those non-nuclear weapon states had each detonated a nuclear explosive device. The President directed that the relevant agencies and instrumentalities of the United States take the necessary actions to impose the sanctions described in section 102 (b)(2) of that Act. Consistent with the provisions of section 102(b)(2)(G) of the Arms Export Control Act, the following

sanctions measures are imposed against India and Pakistan.

(a) *License requirement.* A license is required for all exports and reexports of items controlled for nuclear nonproliferation (NP) reasons to all end-users in India and Pakistan. In addition, a license is required for all exports and reexports of items controlled for missile technology (MT) reasons to all end-users in India and Pakistan, except items listed in § 740.2(a)(5) of the EAR, which remain eligible for applicable License Exceptions when intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft.

(b) *Licensing policy.*

(1) *Nuclear Nonproliferation.* There is a policy of denial for all applications to export and reexport items controlled for nuclear proliferation (NP) reasons to all end-users in India and Pakistan, except high performance computers (see § 742.12(b)(3)(iii) of this part for licensing policy regarding high performance computers).

(2) *Missile Technology.* There is a policy of denial for all applications to export and reexport items controlled for missile technology (MT) reasons to all end-users in India and Pakistan, except items intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft, which will be reviewed on a case-by-case basis.

PART 744—[AMENDED]

4. Part 744 is amended by revising the last sentence of § 744.1(c), and adding two new sections 744.11 and 744.12, to read as follows:

§ 744.1 General provisions.

* * * * *

(c) * * * No License Exceptions are available for exports or reexports to listed entities of specified items, except License Exceptions for items destined to listed Indian or Pakistani entities intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft (see § 744.11(b) and § 744.12(b) of this part).

* * * * *

§ 744.11 Restrictions on certain government, parastatal, and private entities in Pakistan and India.

To supplement sanctions measures against India and Pakistan, set forth in § 742.16 of the EAR, a prohibition is imposed on exports and reexports to certain government, parastatal, and private entities in India and Pakistan determined to be involved in nuclear or missile activities. With respect to subordinates of listed entities in India and Pakistan, only those specifically

listed in Supplement No. 4 to part 744, Entity List, are subject to the restrictions and policies set forth in this section. The addition of entities to Supplement No. 4 to part 744, Entity List, does not relieve you of your obligations under General Prohibition 5 in § 736.2(b)(5) of the EAR: "you may not, without a license, knowingly export or reexport any item subject to the EAR to an end-user or end-use that is prohibited by part 744 of the EAR." You are urged to use the guidance in Supplement No. 3 to part 732 of the EAR, "BXA's 'Know Your Customer' Guidance and Red Flags" when exporting or reexporting to India and Pakistan.

(a) *General restriction.* Certain government, parastatal, and private entities in India and Pakistan determined to be involved in nuclear or missile activities are included in Supplement No. 4 to this part 744 (Entity List). (See also § 744.1(c) of the EAR.) These entities are ineligible to receive exports or reexports of items subject to the EAR without a license. Exports and reexports of all items subject to the EAR to listed government, parastatal, and private entities require a license. A license is also required if you know that the ultimate consignee or end-user is a listed government, parastatal, or private Indian or Pakistani entity, and the item is subject to the EAR.

(b) *Exceptions.* No License Exceptions are available to the entities described in paragraph (a) of this section, except those applicable to items listed in § 740.2(a)(5) of the EAR, which remain available to such entities when intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft.

(c) *License review standards.* (1) *Government entities.* Applications to export or reexport items controlled for NP or MT reasons to listed government entities will be denied, except items intended for the preservation of safety of civil aircraft, which will be reviewed on

a case-by-case basis; and computers, which will be reviewed with a presumption of denial. All other items subject to the EAR to these listed entities will be reviewed with a presumption of denial.

(2) *Parastatal and Private entities.* Applications to export or reexport items controlled for NP or MT reasons to certain parastatal and private entities will be denied, except items intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft, which will be reviewed on a case-by-case basis; and computers, which will be reviewed with a presumption of denial. All other items subject to the EAR to these listed entities will be reviewed with a presumption of denial. Except for items controlled for NP or MT reasons, exports or reexports to listed parastatals and private entities with whom you have a preexisting business arrangement will be considered on a case-by-case basis, with a presumption of approval in cases where neither the arrangement nor the specific transaction involves nuclear or missile activities and the exports or reexports are pursuant to that arrangement. The term "business arrangement" covers the full range of business agreements, including general contracts, general terms agreements (e.g., agreements whereby the seller delivers products under purchase orders to be issued by the buyer), general business agreements, offset agreements, letter agreements that are stand-alone contracts, and letter agreements that are amendments to existing contracts or other agreements. The terms of the preexisting business arrangement policy may also apply to the longstanding continued supply of a particular item or items from the exporter to the entity even when there is no current agreement between the firms. BXA, in conjunction with other agencies, will determine eligibility under the preexisting business arrangement policy. In order to be eligible under the

policy, you must provide documentation to establish such an arrangement. The documentation should be provided at the time you submit a license application to export or reexport items to any listed parastatal or private entity.

§ 744.12 Restrictions on certain military entities in Pakistan and India.

(a) *General restriction.* Certain military entities in India and Pakistan are included in Supplement No. 4 to this part 744 (Entity List). (See also § 744.1(c) of the EAR.) These entities are ineligible to receive exports or reexports of all items subject to the EAR having a classification other than EAR99 without a license. Exports and reexports of all items subject to the EAR having a classification other than EAR99 to listed military entities require a license. A license is also required if you know that the ultimate consignee or end-user is a listed military Indian or Pakistani entity, and the item is subject to the EAR having a classification other than EAR99.

(b) *Exceptions.* No License Exceptions are available to the entities described in paragraph (a) of this section, except those applicable to items listed in § 740.2(a)(5) of the EAR, which remain available to such entities when intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft.

(c) *License review policy.* Applications to export or reexport items controlled for NP or MT reasons to listed military entities will be denied, except items intended to ensure the safety of civil aviation and safe operation of commercial passenger aircraft, which will be reviewed on a case-by-case basis; and computers, which will be reviewed with a presumption of denial. All other license applications will be reviewed with a presumption of denial.

5. Supplement No. 4 to part 744 is revised to read as follows:
